

Lab 4

1. Open the files lab_4.html and lab_4.css. Add your name and the date to the files.
2. Next, follow these steps for lab_4.html:
 - Inside the head section, include link elements to connect the page to the lab_4_layout.css and lab_4.css files.
 - Review the file's contents and save your changes.
3. Now, switch to the lab_4.css file in your editor and apply the following styles:
 - a) For h1 headings directly under the header element, create a style rule to:
 - Center-align the text.
 - Set the font family to Impact or sans-serif.
 - Set the font size to 3em.
 - b) For h1 headings directly under the nav element:
 - Set the font size to 1.2em.
 - Set the font color to white.
 - Set the background color to black.
 - Center-align the text.
 - c) For h1 headings directly under the article element:
 - Set the font size to 2em and the font family to cursive.
 - d) For ul elements within the nav element:
 - Set the list style type to none and the line height to 2em.
 - e) For all hypertext links in the document:
 - Set the font color to ivory and remove the text decoration.
 - f) For all hyperlinks that are hovered over:
 - Set the text decoration to underline.

Jenkins on the Ice

Dennis Jenkins, the retired NBA star, made an announcement today, revealing his contract with Long Sleep for cryonics. He intends to have his body frozen before death and brought back to life in the future once medical science has discovered a cure for aging.

In his typically entertaining manner, Jenkins explained, "Many individuals opt for cryonics to combat illnesses like cancer, but my ultimate desire is to be revived when they can restore my eternal youth." [sic] Additionally, Jenkins may also be hopeful that medical science can address his declining free-throw shooting, which reached 47% during his final year in the league.

A reader has informed us that Jenkins might not be fully aware that the Long Sleep process involves removing the head, preserving only the brain for revival. This could pose a challenge for Jenkins as he would be left without his least-valued asset.
